1. Kitchen Exhaust i.e. Hotel Industries & Malls
2. Industrial Canteens
3. Hospitals
4. Hostels
5. IT & Software Industries

Advantages of ESP Dry Scrubber

- **Permanent filter:** ESP never requires any replacement over the lifetime (15-20 years). It only requires periodic cleaning with water

- **Cleaner, safer & thus more productive environment**
- **Save water consumption around 80% in a year against Wet Scrubber**
- **Save power consumption around 40-45% in a year against Wet Scrubber**
- **Very Low pressure drop: 0.5" of W.C. pressure drop across ESP**
- **UV Lights arrangement is offered as add-on accessory to control the bad Smells / Odors**
- **Efficient Filtration of the smoke & fumes up-to 90-95% and better than EU9 grade filters**
- **Makes this ideal choice of fine pollutants like oil mist and fumes**
- **Better compliance for pollution control & ISO14000 requirements**
